David — good to hear from you! I'm

~~just~~ living with Mary at Robert's house, ¹⁵¹³ ~~1811A~~ Haydn in Cardiff, sort of housesitting while Robert and crew are north collecting wood for structural changes, and getting ready to start camping out. It's a common thing around here. We have several friends living in bamboo and paper mache huts in the areas east. I still have my job at the lot. Are you working for your dad's law firm? Our phone # is 436-3516. It's long distance from your folks' house. Mary and I will be here for one more week.

I think whoever wrote "relaxing of vigilance" was probably just trying to be descriptive. ~~Robert said~~ They meant, I think, that the tellers weren't paying attention. Do you wonder about etymologies?

Robert said, "I saw that letter from David. That's great! That's wonderfully written, but it's such a horrible letter. He's already as descriptive as all hell!"

Robert says he doesn't feel very close to you anymore, "we've just gone in different directions, but I think lawyers and carpenters ~~might~~ have something in common.

Do you have a bicycle?

We have been busy lately. ~~It's~~ I'm
now working 10-5 and the commuting
takes 2 hr. each way. On the weekends
we've been moving and trying to lessen our
stuff. You could come by any evening or
on the weekend. We will try to visit you
but it might not be for a month. Do
you work downtown? Where?

Mike

Do you happen to have that stuff I
sent you about the appeal from time to
time?
