

~~TOP: Switch from journalism to law. Most: don't worry about~~  
the loan debts. I'll help you pay them (I have a  
job now) (there's plenty of time) we can get even. How  
long are you planning to be around? Anything that's worth  
doing is worth doing poorly. (Thank you for) Do you remember  
my friends Calcium and Magnesium, and the dynamite  
stressfighters? What do the top parts of a tree at  
some distance from the road think about it? What  
do the local rocks think about it? Friendship is organic,  
imagination. My horse is your, 3.4 cm, etc. Oxygen,  
toe clips, raw foods. Study in Switzerland; people wear  
highways are of cancer, heart X7 because of lead. Expenses  
with ethical priorities of problems aggressive of  
general ways. Motivation #1 now? <sup>the foot</sup>  
The difference between  
the clever lawyer and the foolish layman is that  
one howls when stepped on, and the other dodges,  
gambles
