Dear David and Kathy,

I believe it would be fair to say, your letter has brought me great joy. May there be peace in the Middle East, among the trees of Georgia, with friends in Berkeley and all that they hold dear. I can hardly say that I understand all that you have written, and I must plead with you to be simple. I would like to learn philosophy, yes. "Please be simple." I promise you that I will do all that I can to prevent dragons from bringing harm to my dear mother.

Greetings! Peace be unto you. Peace[†] be unto your words[‡]. I will do all that I can to keep dragons from eating my mother.

What are your plans for Christmastime? I am going home with from 10 to 22 days leave; my friend J. Burris is going to share the stay at home and visit to California. At some time I will be in Morro Bay. From there I could ride to Santa Cruz. Another Rescue friend is going to be married at Tvolovine Meadows

22 Dec? and we would like to attend. Maybe we shall hitchhike up the coast to Berkeley, and fly back to Utah from Oakland, or ride north from Grandma's, visit you and then hitchhike south. But let us go first to the palm orchard and gather the dates.

I'll call you from San Francisco, between flights on our way to Washington, November 2 or 3. As you were; make that November 4 or 5.

Monday, weather permitting, somewhere above the hills of Georgia, I will be jumping out of an airplane.

Oh Sara. Have you heard from our girl in Israel?

Soon I hope to be passing along to you a letter or news from John Nolan. I have thought about that monkey ^{use the term dearly of course} ever since Basic Training, and here I am at an Army base; I have finally written to him.

Here are the words to those songs:

Rescue Rescue all the way

Rescue Rescue all the way

We Like it Here We Like It Here

We Finally Found a Home

We Like it Here We Like It Here

We Finally Found a Home

Song to Jumping Jacks it can be quite inspiring. (I would blush, but I have felt transcendent)
