DAVID KATHY

From the lands beyond beyond  
From a place past hope and fear

I bid thee

four more beers!  
four more beers!  
four more beers!

cheers (and lears from  
promiscuous steers)

We are sitting in the hammock underneath  
the tree looking at our reflection in some iridescent  
sunglasses that I set on the hammock and ~~resting~~  
~~the~~ crotch sitting with fire engine red yarn  
and sipping beer. So bad you don't have a back  
yard. [But then we really don't use ours as much as  
it deserves] really phenomenal.

You will be pleased or aghast to hear that we are  
coming up to the bay about Dec. 10 or 11 to the  
tune of about three weeks\* depending on whether  
your plans are or have been to come to San Diego  
or to stay in Berz<sup>respectively</sup>. Please contact at closest appropriate  
time, plans enclose, many fine regards and etc.  
See addenda and attached illustrated brochures.  
Hugs and kisses Robert & Nancy

still  
about  
Jan  
1.

DAVID KATHY

Ginger would like to write but is incapacitated by a bad case of studying

Four more beers!  
Four more beers!  
Four more beers!

Cheers (and love from  
David and Kathy)

The situation in the tank...  
the trip looking at our reflection in some fishbowl...  
and spinning beer...  
if beeriness really is minimal.

You will be pleased or angry to hear that...  
coming up to the...  
time of about...  
of your plans are...  
time plans...  
See agenda and attached...  
large and kisses David & Kathy

Yes folks you too can visit California, from the sleazy little border town of Sin Dago to the maddening metropolis of Berzerkeley. Yes you too can share this luxury climate with movie stars

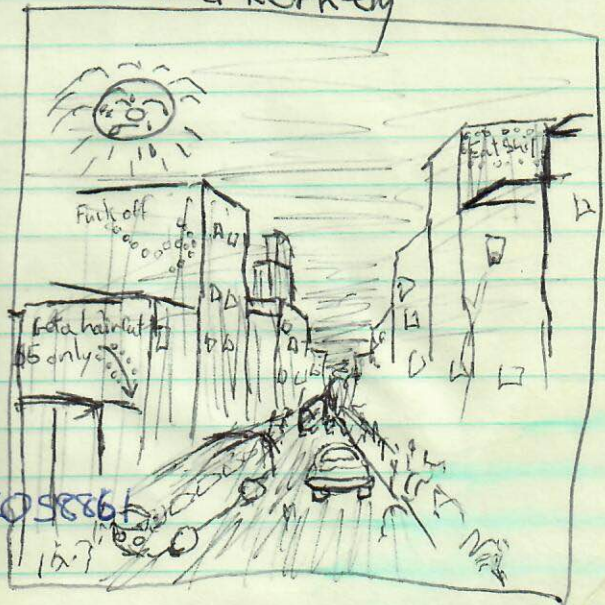

Sin Dago

and embezzelers. Imagine yourself chatting with suburban misfits at a back yard Barbecue or stoned out in the famed Haight ashbury district of sacramento. In California you will enjoy the health benefits of freeways deserts and other hysterias which

most people think are of no benefit to anybody. Come-see how much more there can be to life-bring your industrial park to California.
